Title	Title of this experiment		Index
May 9			
10:00 am	Describe the experimental procedure and record observation and results in		
	every details.		
	• weight, mmol, molecular weight of all reagents and compounds.		
	• volume (about ~mL) of solvents.		
	• temperature (r.t. etc)		
	· color		
	• time (30 min, 3 h etc)		
	should be recorded.		
	When products, redcord them with Sample Number and measure its weight, and routine spectroscopic data.		
	for example: @TT990509A	@ТТ9	90509A
). ****)
